Academic Projects

Portfolio	October 2024

Tools: HTML, CSS, and JAVASCRIPT

This is a fully responsive portfolio, where is each section I have used different types of functionality.

These are some features you should see

Features:

- In every section we have add attractive and cool animation.
- There is a smart and helpful feature in my portfolio, which is a small message box in my contact section, if any user fills it then all the details will come to my mail.
- I have add many types of project in the work section which is very easy to access.
